

The Foundation supports health care initiatives through the funds listed below:

Patient Care

AH Foundation Patient Care: provides annual support for new and expanded patient care services through an internal grants process.

Appearances Boutique: provides wigs, head coverings, and other items for those undergoing treatment for cancer.

Behavioral Health: supports music therapy and other initiatives on the behavioral health unit.

Birthing Suites: provides comfort, excellence in care delivery, ensures the best possible birthing experience for families, and keeps sicker babies close to home.

Breast Cancer Support: provides resources for patients needing assistance while undergoing breast cancer treatment.

Cancer Bridge: supports cancer patients undergoing treatment who have critical temporary financial need that cannot be met from other sources.

Community Outreach: supports health and wellness in our community through programming.

Diabetes: enhances inpatient and outpatient diabetes management, education, and support.

Heart and Vascular: provides equipment and supplies for patients with a focus on low-income, uninsured, or underinsured heart patients.

Hematology Bridge: supports patients with blood disorders, (including anemia, leukemia, lymphoma) who need assistance with transportation, medications, and other support that impact their ability to receive timely treatment.

Hospice General: provides equipment and supplies to enhance the care of hospice patients.

Hospice Gifted Care: provides end of life care for hospice patients who have financial need that cannot be met from other sources.

Hospice - Shenandoah House: supports patient care needs for residents at the end of life.

Hospice – Veterans: provides unique services and support to hospice patients with military service.

Neighborhood Clinics: expands primary care beyond Augusta Health walls to individuals experiencing socio-economic disadvantages that impact health via community sites and mobile medical unit.

Oncology Services: provides equipment and supplies for patients receiving cancer treatment.

Palliative Care: provides pain relief, psychosocial, spiritual, and other services to help improve the quality of life for patients with life-limiting illnesses and support for their families.

Patient Transportation Assistance: provides access to transportation for patients receiving critical care, treatment, and rehabilitation services.

Prescription Medication Assistance: provides free medication to the uninsured/underinsured.

SANE: provides forensics equipment, resources, and support for victims of sexual assault by nurses trained in providing this service at Augusta Health.

Virtual Care: enhances patient care through in-room technology that allows virtual and bedside nurses to work together, providing timely responses and giving bedside nurses more time for direct patient care.

Team Member Education and Support

Graduate Medical Education: expanding opportunities to provide education for internal medical residents who will become future healthcare providers.

Nursing Excellence: ensures nursing excellence through training and education. Recipients are chosen by their professional peers for professional development scholarships in their discipline.

Pharmacy Education: offers educational and professional development for team members.

Team Member Emergency: aids team members who face an unexpected crisis resulting in temporary financial hardship.

Endowments and Scholarships

Dr. C. Tom Carter Memorial Scholarship: provides scholarships to team members engaged in their healthcare fields and communities to foster kindness and quality patient care.

John B. Davis Memorial Scholarship: provides an annual award to a graduating high school student from Staunton, Augusta County or Waynesboro, pursuing a career in healthcare.

Kent Holbert Scholarship: provides financial assistance to students residing in Augusta and Nelson Counties, who are pursuing careers in the medical field.

Medical Laboratory Science Education Endowment: supports students enrolled in the Augusta Health School of Medical Laboratory Science.

Nursing Scholarship: provides tuition or on-campus housing support for high school graduates from Staunton, Augusta County or Waynesboro pursuing degrees in nursing.

Orthopedic Education Endowment: provides scholarships for continuing education of Surgical and Joint Center team members as well as patient education about pre and post joint replacement.

Equipment and Facilities

The Farm at Augusta Health: provides sustainably grown fruits and vegetables to promote food as medicine and reduce food insecurity for patients and community members.

The Gardens at Augusta Health: will offer an escape for patients, visitors, and team members to rest, rejuvenate and enjoy the outdoors.

Hercules Repositioners: devices for inpatient beds that reduce pain and improve patient comfort as well as reduce caregiver injuries and improve response time for boosting.
